FPO FLOODPLAIN OVERLAY DISTRICT

(a) Primary Purpose and Characteristics

The FPO Floodplain Overlay District is hereby created pursuant to the mandates of Wisconsin Statute section 87.30 for the purpose of regulating all floodplains where serious flood damage may occur. The purpose of these regulations is to provide for sound floodplain management in Kenosha County so as to:

- 1 Protect life, health and property
- 2 Minimize expenditures of public monies for costly flood control projects
- 3 Minimize rescue and relief efforts, generally undertaken at the expense of the general public
- 4 Minimize business interruptions
- 5 Minimize damage to public facilities on the floodplains, such as water mains, sewer lines, streets and bridges
- 6 Minimize the occurrence of future flood blight areas on floodplains
- 7 Discourage the victimization of unwary land and home buyers
- 8 Preserve essentially open space of natural use lands which are unsuitable for intensive development purposes due to poor natural soil conditions and periodic flood inundation
- 9 Regulate floodplain areas so as to maintain and improve water quality, protect aquatic and wildlife habitat and prohibit the location of structures on soils which are generally not suitable for such use

(b) Definitions, (See Appendix A)

(c) Designation of Floodplain Areas

For the purpose of determining which areas are to be located within the FPO Floodplain Overlay District, the Kenosha County Office of Planning and Zoning Administration shall develop Floodplain Zoning Maps reflecting the best available data and which show the areas to be regulated. Where Kenosha County large scale topographic mapping is available, the floodplain areas shall be delineated on said large scale topographic mapping. Appendix C of this ordinance contains a listing of where large scale topographic mapping is available where large scale topographic maps have not been prepared, the best available mapping shall be used to show the floodplains.
